

Milburn’s Celebrate 60 Years Together

The family of John and Linda Milburn would like to announce the upcoming celebration of 60 years of marriage of their parents. John met Linda Mumy at Colorado State University in Fort Collins, Colorado. They were united in marriage on August 13, 1965, at Washington Park Church in Denver, Colorado. John completed his accounting degree at Fort Hays State University in Hays, Kansas before returning to the family farm at Dermot. John and Linda were blessed by three beautiful daughters, Ellen, Lana, and Andrea. Their family has expanded to include three wonderful sons-in-law, Bobby Vander-Ark, Benny Rodriguez, and Landry Hayden. John and Linda have thirteen grandchildren and counting, Josh and Ashley, Lauren, Grace, Sommar and Nik, Bryce, Blake, Eirland and fiancé Rick, Eden and Isaac, Ally, and Ashley, and two great grandchildren, Hunter and Evelyn. The entire family would like to invite John and Linda’s friends to a come and go anniversary party held at the Dermot School on Saturday, August 16, 2025, from 2:00 p.m. to 4:00 p.m. No gifts but cards are welcome.

Weekly Devotional Continued From Page 2

desires, our daily routines—as a living sacrifice to God. In the Old Testament, sacrifices were killed, the blood was spilt. But Paul here calls for a different kind of sacrifice: not a dead offering, but a living one. Every moment, every decision, every day, ever part of us and who we are—laid on the altar, surrendered to him...sacrificed to His will.

Why? Because of “the mercies of God.” Because He saved us when we didn’t deserve it. Because He gave His Son to die in our place. The least we can do, according to Paul, is to give ourselves wholly back to Him. The world says that is extreme, but that’s not extreme—it’s reasonable.

As you take in everyone and everything around you...The pull of this world is strong. This world wants to shape us, mold us, and distract us. Paul says, “Be not conformed.” That means stop letting the world push you and force you into conformity without Christ, stop allowing the world to squeeze you into its godless mold. Don’t let the world control who you are and what you do! Instead, be transformed—from the inside out. How? By the renewing of your mind. That happens through the Word of God, through prayer, and through walking in obedience. Walk with God...it transforms your life!

Are you living sacrificially for God, or are you living selfishly? Are you allowing the world to shape your thinking, your habits, your values? Or are you turning to and trusting in God to transform your mind so that you can know and do His perfect will?

This world is temporary—but the will of God is eternal. Determine that you will not be conformed... but you would rather be transformed. Choose surrender over self. Choose Christ.

IN THE DISTRICT COURT OF STANTON COUNTY, KANSAS	
SECURITY STATE BANK	PLAINTIFF,
vs	Case No. ST-2025-CV-6
CARLOS G. LIMON, CAROL J. LIMON, FREDERIC E. LOVE, a/k/a Frederic Love a/k/a Frederic Eugene Love, Board of County Commissioners of Stanton County, Kansas, and the unknown heirs, executors, administrators, devisees, trustees, creditors and assigns of such of the defendants as may be deceased; the unknown spouses of the defendants; the unknown officers, successors, trustees, creditors and assigns of such of the defendants as are existing, dissolved or dormant corporations; the unknown executors, administrators, devisees, trustees, creditors, successors and assigns of such of the defendants as are or were partners or in partnership; the unknown guardians, conservators and trustees of such of the defendants as are minors or are in anywise under legal disability; and all other persons who are or may be concerned.	DEFENDANTS.
NOTICE OF SUIT	

THE STATE OF KANSAS TO:

CARLOS G. LIMON, CAROL J. LIMON, FREDERIC E. LOVE, a/k/a Frederic Love a/k/a Frederic Eugene Love, Board of County Commissioners of Stanton County, Kansas, and the unknown heirs, executors, administrators, devisees, trustees, creditors and assigns of such of the defendants as may be deceased; the unknown spouses of the defendants; the unknown officers, successors, trustees, creditors and assigns of such of the defendants as are existing, dissolved or dormant corporations; the unknown executors, administrators, devisees, trustees, creditors, successors and assigns of such of the defendants as are or were partners or in partnership; the unknown guardians, conservators and trustees of such of the defendants as are minors or are in anywise under legal disability; and all other persons who are or may be concerned.

You are hereby notified that a Petition has been filed in the District Court of Stanton County, Kansas, by SECURITY STATE BANK, praying for a mortgage foreclosure judgment as said Plaintiff is the lien holder on Mortgages on the following described real estate properties situated in Stanton County, Kansas, to-wit:

Tract I:

The Northeast Quarter (NE/4) of Section Nineteen, Township Thirty (30) South, Range Forty (40) West of the Sixth Principal Meridian, Stanton County, Kansas;

Tract II:

Lots Three (3) and Four (4) and the East half of the Southwest Quarter (E/2 SW/4), also known as the Southwest Quarter (SW/4) of Section Nineteen (19), Township Thirty (30) South, Range Forty (40) West of the Sixth Principal Meridian, Stanton County, Kansas;

and praying that the Court determine all adverse estates or interests which are claimed in said real estate, and that Plaintiff’s title thereto be quieted against you and each of you, and that you and all persons claiming by, through or under you, are forever barred and excluded from any right, title, interest, estate, equity or lien in, to, or upon, or claim against the real estate property above described; and you are hereby required to answer or otherwise plead to said Petition on or before the 10th day of September, 2025, at the Courthouse in the City of Johnson, Stanton County, Kansas. Should you fail therein, judgment and decree will be entered in due course upon Plaintiff’s Petition.

Behind The Buzz From Page 2

categories,” Whitworth said. “Two are social species that live in colonies, and two are solitary. All of them have their place in our ecosystem.”

Whitworth explained that the two species, often called paper wasps, build nests that resemble gray paper. Some species nest above ground, while others build their homes in the soil. These wasps often become noticeable during yardwork or when lifting hay bales or rocks.

“These wasps are usually non-aggressive,” Whitworth said. “If you disturb the nest, especially the underground kind, they’ll defend it just like a honeybee colony would.”

Unlike honeybees, which can sting only once, wasps can sting multiple times. Whitworth said that’s because female wasps don’t lose their stinger after using it.

“The female wasps are the hunters,” he said. “They sting caterpillars, grasshoppers or crickets to paralyze them and bring them back to their nest to feed their young. That’s why we consider them beneficial; they’re natural predators of many garden pests.”

Solitary wasps, like mud daubers, also help manage insect populations.

“They build, fill and seal the nest, then move on.

They don’t come back to check on it and they rarely bother people.”

Whitworth said most wasps are harmless when left alone. However, there are times when you may need to remove a nest.

“Whether it’s a paper nest under an eave or a burrow in the ground, you’ll have better success treating the site at night,” he said. “Many common household insecticides are labeled for wasps, and the goal is to eliminate the nest when the wasps are home.”

Even outdoor events can draw a wasp’s attention, especially those attracted to sugar.

“They’re drawn to anything with sugar,” Whitworth said. “If you’re having a picnic, keep those things (containing sugar) covered or contained.”

Ultimately, Whitworth emphasized that most of the time wasps are more misunderstood than menacing.

“They’re not out to get you,” he said. “They’re just doing their jobs. Unless disturbed, most of them won’t bother you. They’re doing a service by helping control other pests.”

More information on controlling wasps around the home is available in the July 22 segment of the weekday K-State podcast, Agriculture Today.

Risks Involved With Carbon Monoxide Explained

A carbon monoxide detector is a useful tool, says Ricketts By Olivia Wright, K-State Extension news service

Carbon monoxide – an odorless, colorless gas – usually offers no warning signs.

When carbon monoxide levels are high enough to cause harm, you may not even know. The gas interferes with the body’s ability to use oxygen.

“High levels of carbon monoxide are dangerous for everyone. Severe exposure may cause death or lasting damage to organs,” said Mitch Ricketts,

an agriculture safety and health professor at Kansas State University.

Ricketts said that even low levels of the gas can be hazardous for children, the elderly, unborn babies and people with heart conditions.

“A common source of carbon monoxide comes from internal combustion engines and fuel-burning appliances,” Ricketts said.

This includes small equipment such as lawn mowers, power washers and generators, but also
